

JoyEvents — Event & Service Marketplace Platform

Project Cost Estimation & Feature Scope Document

Prepared For	Client — JoyEvents	Prepared By	Speshway Solutions
Project Type	Web & Mobile Marketplace Application	Currency	Indian Rupees (INR)
Document Ref	SPW/EST/JOYEVENTS/2026	Validity	30 Days from Date of Issue

1. Project Overview

JoyEvents is a single online marketplace platform that brings together two everyday needs — buying tickets to events (concerts, festivals, workshops) and hiring event-related services (DJs, decorators, photographers, venues, caterers). The platform connects three types of users: **Customers** who discover and book events/services, **Merchants** who list and sell tickets or services, and an **Admin** who governs the entire ecosystem — approving merchants, managing commissions, and ensuring safe, smooth operations.

2. User Roles

Customer

Buys tickets or hires services, adds multiple items to a cart, and checks out together in a single transaction.

Merchant

Sells tickets/services, manages bookings, markets their business, and earns money through the platform.

Admin

Owns and controls the platform — approves merchants, earns commission, and keeps the ecosystem safe.

3. Complete Feature List — Included in Scope

#	Feature	Description
1	Ticketed Events	Buy tickets for concerts, festivals, shows — with tiered pricing (e.g. Silver, Gold, Diamond) and session options (Day/Night).
2	Service Hiring	Hire event professionals (decorators, caterers, bands, venues) with custom requirements such as guest count and add-ons.
3	Secure Payments	Online payments — full or partial advance/deposit — via card or UPI.
4	QR Ticket Check-In	Each ticket carries a unique QR code, scanned at entry to validate authenticity and prevent fake tickets.
5	In-App Chat	Direct messaging between customers and merchants for coordination and queries.
6	Ratings & Reviews	1–5 star rating and review system after a completed booking.
7	AI Recommendations	Personalized event suggestions based on each customer's past activity.
8	Promo Codes & Marketing	Merchants can create discount codes and send promotional alerts to boost sales.
9	Invoices	Downloadable / printable PDF receipt or invoice for every booking.
10	Cart & Checkout	Add multiple events/services to a cart and complete a single combined checkout & payment.
11	Cancellation	Customers can cancel a booking, with cancellation fees applied as per platform policy.
12	Related Suggestions	Related events/services are shown alongside any listing to aid discovery.
13	Merchant Welcome Email	Automated credential email sent to merchants upon Admin approval.
14	Forgot Password	Self-service password reset for Customers, Merchants, and Admin.
15	Browse, Search & Wishlist	Filter by category, date, or location; bookmark favorites for later.
16	Merchant Dashboard	List & sell, manage bookings, collect payments, check in guests, market business, withdraw earnings, track performance.
17	Admin Panel	Merchant approvals, commission control, refunds & withdrawals, dispute resolution, user management, CMS & analytics dashboard.

4. Investment Plans

Two engagement options are proposed based on platform reach. Both plans deliver the complete feature set listed in Section 3.

PLAN A — Web Platform Only

₹80,000

- Responsive web application (Customer, Merchant & Admin portals)
- All 17 core features from Section 3
- Secure payment gateway integration (Card / UPI)
- QR-based ticket check-in (web scanner)
- Admin & Merchant dashboards
- Cross-browser, mobile-responsive UI
- Basic SEO setup & deployment

RECOMMENDED

PLAN B — Web + Mobile App

₹1,40,000

- Everything in Plan A, plus:
- Native/hybrid mobile apps for Customer & Merchant (Android + iOS)
- Push notifications for promotions & alerts
- In-app QR scanner for on-site check-in
- Mobile-optimized chat & booking flow
- App Store & Play Store submission support

5. Plan Comparison

Deliverable	Plan A — Web Only	Plan B — Web + Mobile
Customer, Merchant & Admin Web Portals	✓	✓
All 17 Core Marketplace Features	✓	✓
Secure Payment Gateway (Card / UPI)	✓	✓
QR Ticket Check-In	✓	✓
Android & iOS Mobile Apps	—	✓
Push Notifications	—	✓
App Store / Play Store Publishing	—	✓
Total Investment	₹ 80,000	₹ 1,40,000

6. Payment Terms

- 40% advance on project kick-off
- 30% on completion of core module development & UAT build
- 30% on final delivery, deployment & go-live

7. Terms & Conditions

- Estimation is valid for 30 days from the date of this document.
- Timeline: Plan A — approx. 6–8 weeks; Plan B — approx. 10–12 weeks from kick-off, subject to timely client inputs.
- Cost excludes third-party charges such as payment gateway fees, SMS/email gateway costs, Apple Developer & Google Play publishing fees, and domain/hosting charges.
- Includes 30 days of complimentary post-launch bug-fix support. Ongoing maintenance available under a separate AMC.
- Any change in scope beyond the listed features will be estimated and billed separately.
- Source code and deployment credentials will be handed over upon full and final payment.
